The invention of postcodes in the USA In a modern world, it is hard to imagine a time when postal codes did not exist, but number codes are not very old - historically speaking. In 1943, they took the first step towards the use of zip codes, dividing large cities into postal zones to facilitate the delivery of mail. Just say your device's phrase effect activator Ae Ae Ae Hey, Siri; Hey, Google; Alexa; etc. The last two digits indicate the local post office assigned to a given address.
